RULES OF ORIGIN

Article 1

The determination of origin of goods and the appropriate certification and verification procedures will be defined and applied as established by this Annex.

Article 2

The Rules of Origin in this Annex are based on the general principle of substantial transformation characterized by the change of Customs classification heading. To that end, the parties will use the Nomenclature of the Harmonized Commodity Description and Coding System, including the headings, sub-headings, and the corresponding numerical codes, the notes to the sections, chapters and sub-headings, as well as the general rules of interpretation.

Article 3

The following shall be considered as originating in the Parties:

1. Wholly produced goods are:
 - a) Goods from the mineral, plant or animal kingdoms (including those from hunting and fishing), extracted, harvested or gathered, born, bred or captured in the territories of the Parties, or in their territorial waters or in their exclusive economic zones;
 - b) i) Goods of the sea extracted beyond the territorial waters of the Parties and their exclusive economic zones by ships, wholly or partially owned by nationals of the Parties, legally chartered, leased or contracted under joint venture arrangements by enterprises established in the territories of the Parties;

- ii) Goods of factory ships, wholly or partially owned by nationals of the Parties, legally chartered, leased or contracted under joint venture arrangements by enterprises established in the territories of the Parties produced from goods of the sea, extracted by ships in accordance with the provisions in (i) above;
- (iii) For the purposes of sub-paragraphs (i) and (ii) of this paragraph, ships will be considered as partially owned by nationals of the Parties where the level of ownership by such nationals is at least 50%.
- c) Slag, ashes, residues, waste or scrap, gathered or obtained from manufacturing and processing operations performed in the territories of the Parties, fit only for the recovery of materials, as long as they do not constitute toxic or hazardous wastes in accordance with national and international law on the matter;
- d) Goods produced in the territory of a Party solely from materials or products originating in such a Party.
- e) Goods produced in the territories of the Parties which utilise materials from third countries will meet the criteria under the Rules of origin established in this Article as follows:
 - i) Goods are classified in a Customs classification heading of the Nomenclature of the Harmonized Commodity and Coding System which is different from those in which all the materials from third countries used are classified;
 - ii) Goods in which the c.i.f. value of the materials from third countries used does not exceed 50% of the f.o.b. price of the goods produced.

f) Goods which meet the specific origin requirements determined by the Joint Council.

2. The specific origin requirements shall prevail over the general criteria in this Article

Article 4

For the purposes of this Annex, the following definitions shall apply:

- a) "Materials" means the raw materials, intermediate goods and parts and components used in the production of goods.
- b) Goods" means materials or finished articles.
- c) Production" means planting, extraction, harvesting, fishing, hunting, manufacturing, processing or assembly of goods.

Article 5

For the purposes of determining origin, where materials qualify as originating goods in one Party and these materials are used in production in the other Party, these materials shall be considered as originating goods.

Article 6

For the purpose of this Annex, the following will not be considered as processes of substantial transformation, whether or not an origin requirement has been fulfilled:

- a) operations to ensure the preservation of goods during transportation or storage, such as ventilation, refrigeration, freezing, addition of preservatives or salt, removal of damaged parts and the like;

- b) operations such as dust removal, washing or cleaning, sifting, peeling, shelling, winnowing, maceration, drying, sorting, classification, grading, selection, crushing, filtering, painting or cutting up;
